

FORT WORTH LITTER PICKUP

The City of Fort Worth Code Compliance: Solid Waste Services awarded Clean Slate a city contract in November of 2016 to pick up litter on the Eastside corridor. The contract creates full time jobs with benefits for homeless or formerly homeless individuals while keeping our city streets clean.

In 2017 we removed 3,856 tons of litter from our city streets.

Events & Grounds

Our staff handles numerous event set up and tear down. Examples include city events such as Mayfest and the Friends of the River Bash, charity events, and private parties.

Clean Slate also contracts with private companies for basic landscaping maintenance such as weed removal, mulching, and power washing.
